

SIM 251_45

It's a compact house which fulfils legal requirements of an outhouse of an area of up to 25m² and a height below 5 meters (a building not requiring a building permit). There is a possibility of adding 12m² terrace. A mezzanine which can fit up to two mattresses is located above the bathroom and the kitchen annex. Double bedroom ensures the necessary minimum intimacy. The house is a miniature of a standard Simple House model. Although it looks like a toy house it contains all the features needed to comfortably spend your leisure time outside the city. The double height of the living area compensates surface limitations.

Required minimum plot dimensions: 8.2 x 10m
(Unless otherwise stated in local zoning plan or planning permission for a given plot).
